

A Bipartisan Plan to Save Medicare & Reduce Debt

The Lieberman/Coburn Proposal

Unified Annual Deductible & Annual Out-of-Pocket Limit

- Establishing a combined annual deductible of \$550 for both Medicare Part A and B services will make it easier for seniors to navigate Medicare while also directly addressing overutilization.
- For the first time, Medicare will provide protection for enrollees – they will have to pay no more than \$7,500 each year in out-of-pocket medical hospital or doctors fees, protecting thousands from hardship or bankruptcy in the event of major illness.
- When combined with Medigap reform, this proposal could save \$130 billion over 10 years.
